

SOFNET — PROJECTS

Sofnet has the skills and experience to take complete project responsibility. We take time to work with your business units to understand the present and future needs. Based on the requirements, we provide accurate time and budget estimates. We can provide both T& M and Fixed Price quotes. We have a proven methodology, which we consistently use throughout the project. We have 'gurus' who understand technology inside out : E-Business, Internet, Intranet, Distributed Systems, Multi-Tier Architectures, Object Oriented Analysis and Design and so on, we know it all. We understand your changing needs and are open to talk about any changes that occur during the course of project. We take time to train your staff after deployment. We are committed to quality work. For us, the project is complete, only when you start seeing the benefits.

Why choose Sofnet for your Projects ?

- ✓ Sofnet has the capability to understand your business and knows how to solve long term business needs using the latest available technology.
- ✓ Sofnet has the experience and expertise to provide accurate time and budget estimates.
- ✓ Sofnet can provide both T&M and Fixed Price quotes.
- ✓ Sofnet uses a proven methodology.
